

Elsie, the Famous Cow, as 'Buttercup' in Films

Future Farmers and 4-H Club workers may have a new goal to shoot at with their livestock projects hereafter—to land them in the movies. That's what happened to Elsie, the famous cow, who as "Buttercup" is shown here with Ann Gillis and little Richard Nichols in RKO's version of Louisa May Alcott's celebrated "Little Men."

FASHION PREVIEW

AUTOMOBILE designers of America turned their talents to designing 1941 models in dress, at the invitation of Harper's Bazaar. This gray suit with yellow blouse of Heller rayon jersey was designed by Oldsmobile. The yellow chevrons on the lapels and the plastic fasteners on blouse resemble chromium bars on the Cruiser Club Sedan, as pictured here from the November issue.

British to Get 26 of These Bombers in Latest Aid Program

Here is one of 26 Consolidated B-24 (four-engine long-range bombers which have been released to Britain. It has cruising radius believed to be in excess of 3000 miles with huge bomb load. Three will be delivered in November, three in December, remainder in January. U. S. Air Corps experts will observe their performance in combat conditions, report any defects. British will also get Sperry bomb sight (not the super-secret Norden sight), and 20 Boeing "flying fortresses," bombers similar to this one.

State Relief Bill is 18 Million Monthly  
SACRAMENTO (UP)—The total monthly bill for all types of relief in California paid for by federal, state and local agencies averages about \$18,000,000, the state department of social welfare reported today.

The department disclosed it authorized payment of \$6,783,220 during October under the three social security programs—old age pensions, blind aid and children's aid. The total includes shares paid by the federal government, state and county governments.

Accident statistics show that the quickest way to step off permanently is to keep stepping on the gas.

**Californians Buy Record Number of Cars in 10 Months**  
SACRAMENTO (U.P.)—State Director of Motor Vehicles James M. Carter reported this week Californians bought 163,700 more vehicles during the first 10 months of 1940 than during the same period of 1939. The total number of cars registered in the state on Nov. 1 totaled 2,831,177, Carter said, a gain of six per cent over the registration at the same time in 1939.

The director said the gain is "somewhat over normal" and probably can be attributed to a large degree to increased activities in those industries engaged in national defense.

**Museum Relic Aids Campaign**  
PHILADELPHIA (U.P.)—The Southeastern Pennsylvania Red Cross Chapter has enlisted the aid of an ancient automaton for its annual Roll Call opening today.

The "volunteer" is a mechanical figure of a small woman which draws intricate landscapes and writes messages in French and English. It has been housed in a glass case at the Franklin Institute.

No one knows the exact age of the automaton but Henry Howe, a writer on mechanics, described it in 1842 as an outstanding work of its kind. He referred to it as the work of a master mechanic of a former age.

The figure will be dressed in the uniform of a Red Cross volunteer.

J. V. Murray is recovering from an attack of influenza.
